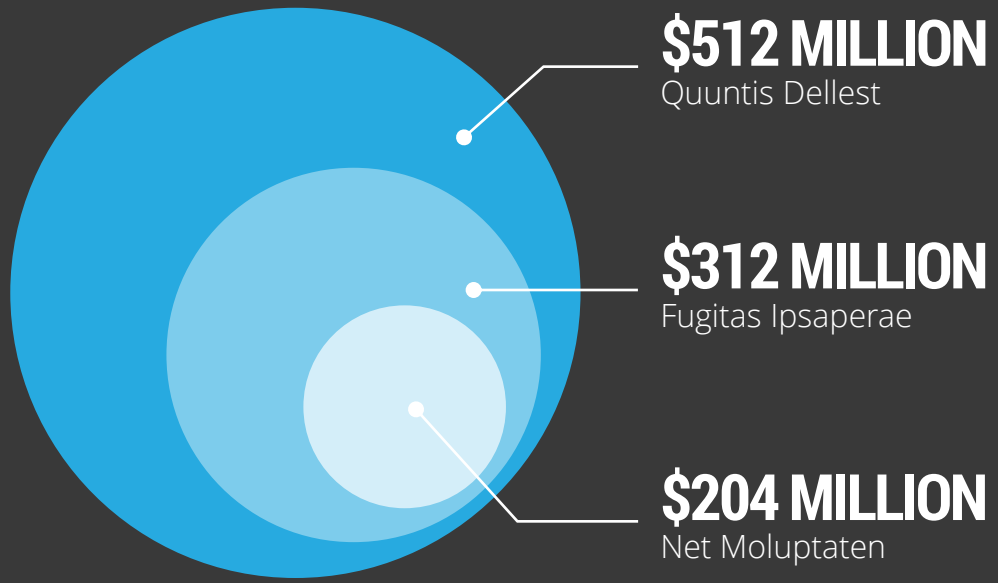
CIRCLE CHARTS



Curabitur semper ante sed massa pulvinar, ut porttitor ligula pharetra. Vestibulum luctus dolor sed orci scelerisque, viverra suscipit ligula suscipit addases.

Nulla suscipit laoreet nibh, nec porttitor urna tincidunt at fermentum tortor ut, adipiscing.

LESSON SUMMARY

BUBBLE CHART
Used to encode a third variable when using a scatter chart

WATERFALL
Used to tell the story of how increases and decreases in a balance effect that balance over time

MARIMEKKO
A form of a histogram chart that show part-to-whole relationships. Popular for showing the composition of markets

TORNADO
A form of bar chart that is used to display the results of sensitivity analysis

MOTION
Dynamic charts that can be used to explore how several variables change over time

TYPES TO AVOID
Pie charts, Donut charts, Anything in 3D, Circle charts, Spider diagrams
