- **Delays focus on design** until ideas have crystalized
- Helps us to come up with **fresh ideas**

Storyboards in Presentations

CREATING A STORYBOARD

ALTERNATIVE APPROACHES

TEXT BASED OUTLINE

- When work is needed on structure and flow

FULL STORYBOARD

- When structure is clear or already determined

TEXT BASED OUTLINE (1/4)

- MegaCorp acquired widget brand Zlonk 36 months ago – performance has not met expectations
- Blue Widget market economics are forecast to worsen – but Blue Widgets will continue to represent ~20% of the total Widget market Economic Profit pool
  - (LHS) Blue Widget volumes are forecast to grow at ~5% going forward… (RHS) But Blue Widgets will continue to represent ~20% of the total Widget market Economic Profit pool
- Over the past 3-5 years direct Widget brands have captured an increasing share of new sales – this trend is likely to continue

TEXT BASED OUTLINE (2/4)

- MegaCorp's acquisition of Zlonk was intended to capitalise on the growing trend towards direct brands – however, 2013 performance has not met expectations due to modelling anomalies under the acquisition case and cuts in marketing spend
  - MegaCorp acquired Zlonk to capitalise on the trend towards direct Widget brands
  - 2013 performance has fallen short of the acquisition case due to modelling anomalies & investment cuts
- Blue widgets sold to existing customers represent the highest value to MegaCorp, but the headroom from growth within the exiting customer base is limited – Zlonk offers a viable alternative to the MegaCorp brand in attracting new customers
  - Cross-sales to MegaCorp customers represent the highest value to the Group
  - The headroom for Blue Widget cross sales to our existing customers is limited

TEXT BASED OUTLINE (3/4)

- We have identified four alternative strategies for Zlonk that warrant consideration
  - Divest; Minimise investment and manage for near-term cash flow (the current plan); Invest behind the brand – but only to test Zlonk's potential as broader Widget brand; Invest aggressively to build Zlonk into a leading Widget brand
- Financial investment required
  - (LHS) Near term investment; (Middle) near-term profit; (RHS) value to MegaCorp
- Evaluation of the alternatives – strategic implications

TEXT BASED OUTLINE (4/4)

- Decisions for today and our recommendations
  - Alternative 3 appears the best way forward for MegaCorp at this point in time – it not only retains (divestment or further investment) options for the Group, but also creates value from the brand in the near-term
  - Given that investment behind Zlonk is not aligned with the current strategy – managing Zlonk as a separate distribution business is most likely to maximise value under the recommended alternative

STORYBOARDING TIPS

1. Create an argument map

STORYBOARDING TIPS

1. Create an argument map
2. No ‘A’s for artistic ability

STORYBOARDING TIPS

1. Create an argument map
2. No ‘A’s for artistic ability
3. Focus on Introduction and Next Steps

STORYBOARDING TIPS

1. Create an argument map
2. No ‘A’s for artistic ability
3. Focus on Introduction and Next Steps
4. Collaborate

STORYBOARDING TIPS

1. Create an argument map
2. No ‘A’s for artistic ability
3. Focus on Introduction and Next Steps
4. Collaborate
5. Iterate

LESSON SUMMARY

CREATE STORYBOARDS

Use storyboards to be more efficient, see the big picture and focus on story and structure

STORYBOARD OR OUTLINE

Go directly to storyboarding or start with a text based outline

USE PEN & PAPER

Storyboards are a visual tool, so write (and draw) your ideas on a series of panels on a piece of paper

IGNORE ARTISTIC ABILITY

Don't worry about what it looks like

ITERATE, COLLABORATE & EDIT

Iterate, collaborate and edit ruthlessly
